Robi Axiata Limited
Gulshan South Avenue, Dhaka-1212.

Dear Sir,

I am writing to express my interest in the Software Engineer at Robi Axiata Limited. I discovered the job opening on LinkedIn. I am interested in this particular job and company because of Robi's reputation as a leading telecommunications provider in Bangladesh and the opportunity to work on cutting-edge mobile technologies.

I have 2 years of experience as a Software Engineer where I developed and maintained Android mobile applications. I have a strong knowledge of Java, Kotlin, and Flutter, as well as the MVVM architectural pattern. I am also proficient in troubleshooting and debugging issues, and ensuring optimal app performance and stability.

- Write clean, maintainable, and efficient code
- Collaborate with product and design teams to define app requirements and specifications
- Implement and maintain the Model-View-ViewModel (MVVM) architectural pattern
- Work with Flutter as a complementary skill to enhance cross-platform development

As a Software Engineer Intern at Acme Corporation, I successfully developed and maintained 10+ Android mobile applications using Java and Kotlin. I collaborated with product and design teams to define app requirements and specifications for 5+ successful product launches. I also implemented and maintained the MVVM architectural pattern for 3+ complex Android applications, and used Flutter to enhance cross-platform development for 2+ mobile applications.

I am confident that my skills and experience make me a strong candidate for the Software Engineer position at Robi Axiata Limited. I am eager to learn more about the role and the company, and I look forward to the opportunity to discuss my qualifications with you in more detail. I have attached my resume for your review. I am also available for a phone call at your convenience. Thank you for your time and consideration.

Sincerely,

Anannya
